

Kitten Purritos

This pattern is intended for worsted weight (Med/#4) yarn and size 7 US needles. You can use other sizes of yarn as well, but it will affect your end-product. I've found that sport/fingering weight yarns tend to decrease the product by one size, so if I'm trying to create the small size, I will follow the instructions for the medium purrito. Bulky yarn works the other way, increasing by a size. So you can use up a lot of scrap yarn in a variety of sizes making these little guys!
